

NMS Philosophy is [The mandalas – Strategic Symbolic Manifestation. \(SSG\) wich are](#) (SMG) Strategic Multidimensional Geometry and it is (SMG) Based..

(SMG ) are Maps, a Drawing/ [mandalas](#) , or A (Strategic Sacred Geometry and Art) but most important is that they are;

\*Multidimensional-having or involving or marked by several dimensions or aspects.

\*Strategic - Important or essential in relation to a plan- Highly important to an intended objective

\*Geometrical - Configuration; arrangement. - A physical arrangement suggesting geometric forms or lines

The mathematics of the properties, measurement, and relationships of points, lines, angles, surfaces, and solids.

Strategic Symbolic Geometry (SSG) are actually imparting esoteric ideas/teachings. The mandalas (SMG) contains instructions by enlightened for the attainment of empowerment/enlightenment. The work (SSG) allows/tool for maximum benefit.

(SMG) Strategic Multidimensional Geometry **Views -the Human Being and Body**

Understanding Inner Space Being the Essence of outer Space.(Essence and Evolution) for the Understanding and reclaiming/renewing of empowerment/enlightenment.

The Relationship of the Macrocosms (Universe) orbit and Microcosms orbit (Human Being/body).

All cultures have expressed this thru Sacred / wisdom teachings and can be reflected by cultures and all their physical manifestation,

Example :The China's -The Ba Gua Zhang –concept- (Eight diagrams map) is a (SMG) representing this physical phenomena.

All of these (SMG) Strategic Multidimensional Geometry were based and found within the human being and body.

To pay honor the Essence of life, the (SMG) inside the human body (the Truer Self).

The Boundlessness Inside all Human beings.

Example:

The (Multidimensional-Triangle) Pyramid- A geometrical shape with base four sides rising from a rectangular base with a (triangle) shape.

(Triangle) rise arbitrarily vertical distance while moving towards the (center) meet to from (point), at a rectangular base.

(NMS formula -point, line, surface and cube/space).

Example: if you place an image of Triangle behind an image of human body.

The human body has height and base.

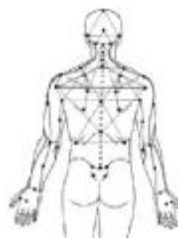

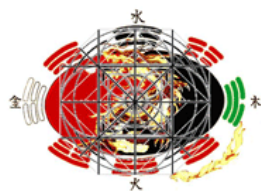

Triangle sides touch shoulders

Shoulders and head create a triangle (the human being/body has (SMG) inside of it.

also if you follow the natural path down from the shoulders to ground creates another triangle.

another Example:

The Cone (Multidimensional- circle) - a circular (base) rise a arbitrarily to meet at point,

All of these (SMG) were created to honor the inner (SMG) our True- Self / True Nature. Our Empowerment /Enlightenment.

Example:

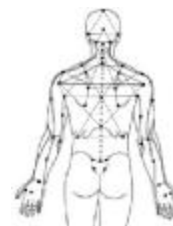

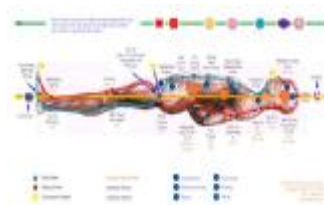

Giza (Egyptian) triangle, lines up behind sun (Circle)

As if the triangle is emanating from the (Sun - Circle - Head )

Base is resting on Earth, peak reaching the Sun / Heavens.

(NMS – the art and science, of the square within the circle.)

Example:

Another Example: the Sacrum (Sacred Bone) located in the human body.

The extension of the (SMG) –Triangle inside the human body.

The (SMG) inside the human being/body and inside of human beings interconnection of Heavens and Earth.

A person who is empowered has its (SMG) complete, strong and upright.

Is an extension of source and is aligned with source the Macrocosms/Universe

Containing heavens and earth.

To develop, practice and manifest this (SMG) inside the Human,

To Master our Inner space (SMG)

To let the inner space / inner self ,Master the outer space and all in it.

Develop true power (Internal Power).

Powerful in mind, body and spirit.( To be The Golden Dragon)

It is to be Truly Empowered.

Shen Gung (NMS study group director)
